DISPATCHES TO THE OREGONIAN

EASTERN DATES TO JULY 30

EASTERN STATES.

The Riot at Savannah.

SAVANNAH, GA., July 30.—The riot yesterday was occasioned by the continued attempt of the negroes to ride in cars. Several negroes had been ejected by some young men. At one P. M., two negroes were expelled from the cars. The excitement became intense, and toward night 2 000 negroes lined the street. Many white people were also out. About 8 o'clock a car was fired into by the negroes, and the white men in the car returned the fire. Every car that passed after that was fired into, and the fire along the road became general, for about an hour the negroes shooting in all directions. About 11 o'clock two women and two children were shot by the rioting negroes while standing on the steps in front of their houses. The police arrived with muskets ordered out by the Mayor, but the cars stopped running and the demonstration ceased. All quiet to-day.

Three young men have been arrested charged with ejecting negroes from the cars. Their cases are postponed by the United States Commissioner until Thursday.

The following is a list of the casualties: Master Darber, two painful buckshot wounds in the breast, two children shot in the body and one in the temple, Mrs Cohen, shot in the stomach. Two children slightly wounded, F. S. Lager, shot in the wrist, Henry Suberf, shot in the foot. Several negroes were wounded but none killed.

LATER.—In the riot at the Grant meeting several were stabbed and beaten with clubs. The Mayor has issued a proclamation ordering all to assist in keeping the peace.

A German Paper for Grant.

CLEVELAND, July 30.—The *Germania*, for 25 years a prominent Democratic paper in this city, in fact the oldest German paper here, has hauled down the Greeley and Brown ticket to-day, and has announced its intention to advocate the election of Grant. The change has created much excitement in Democratic circles, and several German Democrats have threatened its editor, John M. Boerman, with personal violence, but so far nothing has grown out of it.

National Labor Conference.

NEW YORK, July 30.—A conference of the National Labor party, as represented at the Columbus Convention, was held here to-day. About 60 delegates were present. Chamberlain, President of the Columbus Convention, presided. The principal topic of discussion in the forenoon was upon the propriety of censuring or expelling the committee appointed at Columbus to notify Davis and Parker of their nominations, on the charge that the committee did not perform its duty, but instead endeavored to traffic with other politicians. It is understood that the conference will instruct their party to refrain from taking part at the coming election. At the evening session of the Labor Reformers, after much angry discussion, in which the sentiment of the majority were given in favor of nominating Grant and Wilson, power was given to the executive committee to call, if desirable, a National Convention of the Labor Reform party.

Flopped.

HUNTINGTON (Pa.), July 30.—The *Globe*, an old Republican journal of this place, takes down the names of Grant and Wilson, and hoists those of Greeley and Brown.

For Grant.

INDIANAPOLIS, July 30.—Hon. Jason B. Brown, a prominent Democrat, addressed a meeting to-day in opposition to Greeley.

Destructive Fires.

NEW YORK, July 30.—The fire at Hunter's Point, which seems to have commenced in a canal boat loaded with oil, is still raging. The fire also communicated to the Standard Oil Works, which had a million barrels of oil stored, and soon spread extensively. It is reported that a woman and child on the canal boat were burned to death. Two of the Williamsburg ferry boats are also reported burned. There is a perfect panic among the people at Hunter's Point. Houses are destroyed, and the efforts of the Fire Department seem powerless. All the cars on the Flushing road have been removed. The loss is enormous.

OSWEGO (N. Y.), July 30.—A fire this morning destroyed the new hotel block. Insured for $25,-000.

Boiler Explosion.

CHICAGO, July 30.—The tow boat *Malburn* exploded her boiler on the Mississippi river, two miles above McGregor, Iowa, this afternoon. Of twenty five persons said to be on board, only ten, at last accounts, were known to be saved, and some of them were badly scalded. Very few particulars received here yet.

WASHINGTON CITY.

WASHINGTON, July 30.—A letter from Senator Palmer to the colored citizens of the United States is published. It is written in reply to a communication. Speaking for himself, he says his vote will be given to Horace Greeley, and in giving it he does not go for the Democratic party, nor is he any less Republican, and, in conclusion he unhesitatingly advises his colored fellow citizens to support Greeley and Brown, as true Republicans and friends of their race.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, July 31.—The Board of Regents held a special meeting yesterday instead of to day as expected, and after some discussion elected Prof. D. C. Gilman, of Yale College, President of the State University, Mr. Thompkins having declined a nomination, the vote stood 12 for Gilman. The salaries of Professors of modern languages was fixed at $900, and $1,000 each per annum for Spanish, German and French.

The prosecution of parties for alleged repeating at the Democratic primaries, failed on the ground that the election, though called under the Porter primary law was really held under the new election law, the Porter law having been repealed.

The assignees of John Sime & Co have in bank $30,000 more than is required to pay off the entire recognized claims against the firm, and expect in a few weeks to have the injunction brought by the assignee of James Q. King, on a stock transaction, removed and the creditors paid off.

Harpending and others, who dispatched an exploring party to the western border of New Mexico and eastern Arizona, last year, in search of the diamond and ruby deposits found some years since by Kit Carson's party, are reported to have received $100,000 worth of those precious stones from that locality some months since. In the meantime they are said to have obtained a patent from the United States to the lands on which the mines are situated, and made arrangements for organizing a large company, with Gen. George B. McClellan for President, to work the hills.

William Wallace Bennett, a printer, dropped dead at the Railroad House last night.

Wm. C. Palmer, doorkeeper at the California Theater, has been arrested on four charges of embezzlement.

SAN FRANCISCO, July 31.—In the case of Chas. Dixon, indicted for grand larceny in appropriating to his own use $10,000 intrusted to him by Whitney, a broker, for safe keeping, the jury rendered a verdict of not guilty. The money was nearly all recovered from the woman in whose hands he had placed it.

The San Francisco and New York Mining and Commercial Company, to carry on the business of mining and exploring for gold, silver and other precious minerals and substances of every name and nature, in all the States and Territories of the United States, and to do such commercial business connections therewith as the interests of the said Company may require, capital $10 000,000, with Albert Gans, Milton S. Latham, Louis Sloss, Wm M. Lent, Thos H. Selby, Maurice Dore, of San Francisco, and Geo. B. McClellan and Samuel Barlow, of New York, Trustees, incorporated late last evening. This is, undoubtedly, the Arizona diamond and ruby hunting operation.

The Board of Health to day, in view of the fact that smallpox has ceased in the city dismissed the further vaccinations. The total number vaccinated at public expense is 13,200. There have been 60 cases of smallpox all told and 13 deaths. All the parties attacked with the disease are now convalescent.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Sale of Bonds.

NEW YORK, July 31.—Offers for bonds to-day amounted to four and a half million dollars at 14 38 to 14 25. One million is to be bought at 14 36 to 14 78.

Miscellaneous News.

SELMA, July 31.—The army and boll worms have appeared and are doing great damage. The cotton crop will be light.

NEW YORK, July 31.—A fire on Forty seventh street, last night, destroyed a large slaughter house with about seventy-five cattle and two or three hundred sheep. In an adjoining tenement house, which was also burned, a child two years old was burned to death. Loss over $100,000.

The Great Fire at Hunter's Point.

NEW YORK, July 31.—The underwriters estimate the loss by fire at Hunter's Point, yesterday, at $1,500,000. Thousands of persons visited the scene of the conflagration last night. Thousands of barrels of oil are still burning. The fire will probably continue to-day if the supply of oil is not exhausted.

The Japanese.

Members of the Japanese Embassy yesterday attended the launching of the steamboat *Kewanda*, which was built for the Japanese Government.

Mexican News.

Mariscal, recently Minister of Foreign Affairs in Mexico under President Juarez, now charged a second time to represent Mexico at Washington, arrived yesterday.

Greeley Changes His Mind.

Horace Greeley has reconsidered his purpose of making a stay on Long Island, and has now determined with his family to visit his old home in New Hampshire, where he will remain a month or more.

The Election in North Carolina.

A *Times* Raleigh, N. C. dispatch says no one expects the election day will pass without bloodshed. It is estimated that there will be abundant furious affrays in the State.

Longshoremen on a Strike.

Longshoremen in the employ of the Metropolitan Steamship Line from here to Boston have been on a strike since Monday, and threaten vengeance against the new hands. The police will prevent violence.

Gov. Geary on the Labor Question.

Gov. Geary, in a letter to the Labor Reformers, reiterates the expression of his sympathies with the labor cause and says the true policy of the laboring people is to marshal their strength upon candidates for Congress and Legislative officers who will support their cause. The Labor party, he thinks, holds the balance of power in Pennsylvania, and could, if it would, control the contest for the Presidency. At the evening session of the Conference, a vote of sympathy with the Williamsport strikers passed, and of censure against the administration for the non-enforcement of the eight hour law.

A Cute Thief.

TERRE HAUTE, July 31.—While the officers and clerks of the City Bank, in this city, were looking at a circus procession passing the Bank, this morning, a thief entered the back door, stole $4,000 in currency and $5,000 in checks, and got away.

The Explosion on the Mississippi.

CHICAGO, July 31.—The number of persons lost by the explosion of the steamer *Malburn*, on the Upper Mississippi, is said to be six and a child. Four of those saved are wounded or scalded. As usual, there appears to have been no cause for the explosion. There is a rumor that she was racing against time. The engineer says there was a flaw in the boiler iron. The boat sunk in ten feet of water.

Steiner, the Defaulter.

CHICAGO, July 31.—It is now thought that Steiner, the defaulting manager of the French Band concerts, got away with $20,000.

BY ATLANTIC CABLE.

Royal Visit to the American Fleet.

LONDON, July 31.—The American fleet is expected to be visited at Cowes by the Prince and Princess of Wales. The Queen and Princess will entertain Admiral Alden and a number of other officers of the fleet to-morrow, and on Friday the Mayor of Southampton entertains the officers.

The Geneva Board Harmonious.

VIENNA, July 31.—A Geneva special says it is stated on good authority that there is complete harmony in the Board of Arbitration, and a speedy settlement of all the questions before the Tribunal is expected within a few weeks.

Nellie Grant is here.

UTAH.

From Salt Lake.

SALT LAKE, July 31.—Reliance Tunnel Mining Company was incorporated, with a capital of eight hundred thousand dollars. Lloyd Rawlings, President. Works Little Cottonwood.

The reporter of the *Tribune* was expelled from the City Council last night, for alleged incorrect report.

Democrats generally refuse to accept Geo. Q. Cannon as nominee of their Convention as delegate to Congress.

An immense ratification meeting for Maxwell union candidate was held last night.

ARIZONA

A Game Fight.

TUCSON, July 26 (via San Diego, July 31).—At Tubac, on the 23d instant, about thirty Apaches attacked A. C. Benedict, Jose Pavilla and Thos. Papia, while at work on their crops. Benedict, being an expert shot and having his gun at hand, got the first shot and successively killed three in as many fires. Meantime the other men got their arms, which were a little distance off, and in the engagement each killed two Indians, making a dead loss of seven to the enemy. Benedict's clothes were riddled with balls, his left leg shot through at the ankle and dangerously shattered, and his right foot slightly injured. Dr. ... went out and brought him to Tucson, where he is now receiving medical care. Jose Pavilla was shot through the left arm—a deep flesh wound, but not regarded dangerous. Excepting three with lances the Apaches were well armed with guns.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, July 31.—The incorporation of a company with ten millions of dollars capital, and George B. McClellan of New York and numerous wealthy San Franciscans for trustees to work for diamonds in Arizona and Nevada, created quite an excitement here to-day. The projectors of this enterprise have actually, in the Bank of California, about one hundred thousand dollars worth of diamonds, about a dozen of which have been cut. One of them weighs one hundred and two carats, and is a perfect stone. They have also about a quart of smaller stones, the value of which has not yet been ascertained. They have also a large number of rubies of rich color, though small, and several sapphires and emeralds of small value.

Jones and Packerman, voluntary bankrupts, have been arrested on the charge of fraudulent bankruptcy, and held to bail in the sum of $10,-000 each.

A report from the expedition sent down from here to the coast of Ecuador to recover the treasure sunk on the frigate *Lacadia* in 1802, received yesterday by steamer, says one thousand six hundred dollars only have been raised up to date, but as soon as the permanent commissioner arrives to superintend the work according to the terms of the contract, operations will be resumed, and the hope is entertained that the entire treasure will be recovered.

The yield of the Raymond & Ely mine for July is $344,705.

Rogers and Suise, who were burned to death at San Leandro, were buried to day by the Portuguese Benevolent Society. The money for which Rogers lost his life, was found in the ruins melted into a mass.

SAN FRANCISCO, July 31.—The estimate of $100,000 for the Arizona diamonds received here does not include the value of the great one weighing 108 carats, which, if perfect, is worth over a million dollars. The diamond fields are on the line of the 35th parallel road.

A large meeting of the San Francisco "bar" was held to day, at which suitable resolutions on the death of Judge Edward Norton were adopted.

The patent Barrel and Veneer Co., capital, half a million dollars, to manufacture various kinds of wooden ware, was incorporated to-day.

The entire cargo of the bark *Civic*, from Sitka, consisting of fresh caught cod fish, were found unfit for food, and thrown overboard in the harbor.

INTERIOR CALIFORNIA SUMMARY.

LOS ANGELES, July 31.—The party sent in search of the lost Gunsight Lodge, in Death's Valley, returned after a fruitless search. This is the third or fourth expedition that has been fitted out and returned, unable to find the ..., which is reputed to be ... pure silver at the surface.

POLITICAL NOTES.

The organs of the Greeley Democracy declare that the Cincinnati-Baltimore nomination have *electrified* the great mass of the American people. Remarks a contemporary—"Shocked them rather."

On the 19th of July a conference of a number of prominent straight-outs of Virginia was held in Richmond, with the alleged purpose of forming a coalition against Greeley and to stump the State for Grant.

The Terre Haute (Ind.) *Journal*, the principal Democratic paper in Dan. Voorhees' District, casts its gorge at Greeley, and expresses doubts whether the redoubtable Dan. can be elected in the present demoralized condition of the party.

Of the nomination of Greeley the Detroit *Free Press* (Dem.) says: "The nearer it gets to success the worse off will be every financial and commercial interest of the country. The unsettlement of everything that conduces to enterprise and investment will follow."

"Very well, sir," said a Democrat, "as my party has finally conferred that Republican ideas are right, and Republican amendments to the Constitution and Republican legislation are to be maintained, I will go for Grant, who carried those ideas, amendments and laws to success."

The Chicago *Times* (Dem.) makes this observation: "Put Mr. Greeley in his (Grant's) place, with the power behind him of that King Caucus which, in his nomination, has shown its readiness to abandon right for plunder, and though he were the most virtuous of men, his official career could not fail to be one vile and corrupt."

Senator Trumbull has a holy horror of nepotism. He was not attacked with it, however, until he had made a persistent but unsuccessful attempt to get his son appointed Secretary of the Territory of Montana. Failing in this, he appointed his son clerk of the Judiciary Committee, of which he is Chairman, and then proceeded to howl lustily about nepotism.

Greeley's paper is moved to rage by the proposed meeting of soldiers and sailors in Pittsburg on the anniversary of the battle of Antietam, and especially toward General Burnside, whom it abuses after the most approved fashion of the *World*. Abuse of soldiers and sailors who fought down the rebellion is the necessary outcome of Mr. Greeley's position; and it must be confessed that his paper has got pretty far along in the business, considering the time it has had.

A San Francisco exchange, speaking of William A. Piper, who was nominated by the Democrats for Congressman from that District, says: "Piper is an old plaster, rich, and is principally distinguished for having contributed *ninety cents* to the Sanitary Fund for the relief of the wounded on the battle fields during the late war. Piper is an exceedingly unpopular man and has but few friends. His nomination has disgusted many Democrats, and it will be impossible for him to poll the full vote of his party."

Col. William Sirwell, of Kittanning, Pennsylvania, having been informed of his nomination for Congress by the Armstrong county Democratic Convention, subject to the decision of Conferees, publishes a card in the *Union Free Press*, in which he "respectfully declines the honor," and adds: "As I am under no obligations to the Democratic party, I do not hesitate to say that I will support General Grant for President, and the entire State and county Republican ticket."

A letter written from the eastern portion of Pennsylvania says that wide-spread dissatisfaction exists there among the Democrats. We quote: "Since the nomination, the opposition to Greeley, while it has necessarily ceased to find a place in the 'organs,' finds as decisive expression from the people as before that event. The Democrats of Berks county have always been taught to believe Horace Greeley a little better than a political marauder, cut-throat, and the like, and now will not be persuaded otherwise."

An exchange says: "There can be no doubt that Horace Greeley has been the most inveterate trafficker in offices in this country. His applications for office encumber every department in Washington, and he has recommended more bad men to office than any politician of his time, except Fenton, whose supporters are all drawn from the people of his own class. Greeley's office-seeking has been a mania with him for years past. We shall give some instances shortly of the rascals he has contrived at one time or another to saddle upon the country."

GENERAL NOTES AND NEWS.

Alex. Randall, Postmaster General under the last Administration, died at Elmira, N. Y., a few days ago.

Ex-Senator Fitch, of Indiana, a life-long Democrat and a man of influence, has publicly announced his determination to support Grant.

A Democratic Grant and Wilson Club has organised in the Tenth Ward of San Francisco. The officers are as follows: President, Edward Durkin; Vice President, James Conway; Corresponding Secretary, John McHugh; Treasurer, Michael Nolan.

The search for Dr. Livingstone is gradually developing the nomenclature of Africa. For a long time Ujiji seemed to be the only place of note, but now Ugoge comes up smiling. We like it better. It is a good name for the doctor to remember.

Joaquin Miller said to a reporter the other day, "The world wants a new god continually to bow to, a bull calf made of brass. The world is a great jackass." Holding these convictions, Joaquin naturally bows down to Greeley, as the cheapest available substitute for the bull calf, of his poetical idolatry.

The Chicago, Rock Island and Pacific Railway Company have disposed for the present of the labor question, so far as their employes are concerned, by the adoption of a rule employing all workmen by the hour. If they wish to work ten, twelve or fourteen hours, when there is a demand for it, they can do so, and earn wages accordingly.

The report of the German Immigrant Society shows that during the month of June 18,200 German immigrants landed in New York, an increase of 7,133 over the corresponding month of last year. The total number of German immigrants arrived from January 1st is 67,051, an increase of 34,105, compared with the same period of last year.

On the 4th of July, 32 years ago, the Philadelphia *Ledger* contained its first article under the head of "The Money Market." The same heading has been continued daily in each successive issue since, and the hand that penned that article has, steadily and without intermission of a single day on which the paper was printed, furnished the matter under that particular heading.

Ballooning.

WHAT A FRENCH ENGINEER HAS ACCOMPLISHED IN AERIAL NAVIGATION.

The advocates of the possibility of utilizing the balloon for the everyday purposes of life have been greatly encouraged by the result of a series of experiments lately made in Paris, and recently communicated to the Academy of Sciences. The experimentalizer is an eminent French engineer, and well acquainted with both the theory and practice of his profession; and his attention was especially called, during the siege of Paris, to the importance of having a balloon which possessed some power of steerage. He has completed the first construction according to his new plan, and made, as he claims, entirely successful experiments with it. The balloon is in the shape of an enormous egg, the long axis horizontal, with an ... car suspended ... it. The total length is 118 feet, and its diameter at the point of ... circumference 49 feet. The rudder by which ... the balloon ... is a plain triangular surface ... of varnished calico, and controlled ... ing a windlass ... for the ... eight men to manage, and is capable of carrying fourteen persons. The ... is fixed to the balloon ..., and the screw is below it and immediately attached to the car, and having ... that they can be placed horizontally to ... injury. The windlass which turns the screw is worked by four or eight men. The ... of the balloon is composed of white silk. The constructor does not pretend to be able to make a direct movement against the wind, but only to deviate from its direct set when running before it. He ... to be able to tack to the right or left, but does not hope to be able to beat to the windward. There is a second balloon attached to the bottom of the main balloon, forming a kind of ... occupying about a tenth of the ... of the balloon, and serving to ... it stiff ... of the required shape. In the experiment ... a half gale was blowing, and the result ... to his ... tions. The screw drove the balloon ... five miles an hour faster than the wind was blowing, and by the use of the ... the course of the balloon could be altered eleven degrees, ... from the set of the wind.

A Remarkable Case.

A MUTE BOY RECOVERS HIS SPEECH ... IN THE AGONIES OF DEATH.

[From the March ... (Pa.) Democrat.]

One of the most heart-rending ... that has happened in or about the coal works for years, was that which proved fatal to a mute boy, about fourteen years of age, named B..., near Carbondale, recently. He was engaged in pushing coarse coal into the teeth of the ..., and by some ... one foot went with the coal and was caught by the teeth and suddenly drawn and ... with the coal, until his body filled the mouth or opening above the revolving iron ..., and thus stopped the revolutions of the machinery. His cries brought many to his relief in a few moments, but there was no way to get him out but to send to the machine shop for men and tools to take the machinery apart and allow the coal and the teeth to fall away from the mangled leg. The poor boy suffered the torments of death for nearly two hours before he was relieved, and then it was ascertained that most of his foot had been entirely torn away. He only survived about half an hour after he was taken out and carried home. The most remarkable thing connected with this sad affair, was the fact that the boy, although a mute, and ... life, actually ... of those about him to get him out ..., and ... to God to spare his life as ... and ... as could any boy. Will some ... explain the cause which gave the power of speech to this dying boy?

Democratic Disgust in Pennsylvania.

There are strong evidences of Democratic disgust in Pennsylvania at the nomination of Greeley. The Pottsville *Standard*, a Democratic journal, ... more as an unwarranted and ... desertion of a flag which, though often ... in defeat, has never before been dishonored. It says:

"We are entirely ... in our belief that, in a ... 'Liberal Republicanism,' so called, is both a ... and a fraud, and ... this ... of a party representing three million voters to the management of a political myth will in the end prove itself fraught with ... of ..." The Perry county ... is indignant at the ... of the organization, and prefers ... to ... under the leadership of a life-long opponent like Greeley. The ... says these ... in the party ... be insane, and that they were influenced by "considerations of place and profit." The Philadelphia *Democrat*, the organ of the German Democracy, says that Greeley is no Democrat, and if the leaders of the party set him up as a standard-bearer, "they act a political falsehood and commit a crime against honesty, loyalty and truth, of which the righteous punishment will not fail to follow upon both parties to the hypocritical compact." The Westchester *Jeffersonian*, another staunch Democratic sheet, says that the action at Baltimore will excite feelings of disgust and mortification in the breast of every earnest and true Democrat in the country.

Democrats Supporting Grant.

The Chicago *Times*, an ... Democratic, but not a Greeley ..., publishes the following among a host of similar letters.

PONTIAC, Ill., July 16, 1872.

Where, in God's name, are we, as a party, drifting to? Has the time come when we, as a party, can't make our own nomination? We, as Democrats, in this part of the county, can't support Greeley, and won't. But next November we must vote, and that will be for Grant before Greeley. As for you not supporting Greeley with your paper, the Democrats in this part of the county say "bully." Where there is one Republican in these parts that will vote for Greeley there are ten Democrats that will vote for Grant. So, Mr. Editor, you may expect Livingston county to go solid against Greeley this fall. If there had been a straight Democratic nomination Livingston would have redeemed herself at this election, but the way things are now, all is lost. Hoping that Grant may be re-elected, and that it may teach us a good lesson in the future, I subscribe myself,

A TRUE DEMOCRAT.

Very Few Recruits.

The following is from the Chicago *Times* (Dem.) of July 18th:

Since the Baltimore Convention, three or four of the baker's dozen of Republican newspaper concerns that have been flying the Greeley flag have taken in that ensign and thrown out the Grant flag in its stead. Of the little squad of Greeley Republican organs, less than a dozen are left, and nearly all of these are in a moribund state. The fact may be perhaps regarded as a fulfillment of the pretense, held out by some partisan sheets, that the political highways would be filled with accessions to Greeley from the Republican party so soon as he should get possession of Baltimore. There have been touching appeals for recruits since then, but as yet the recruits don't seem to put in an appearance.

Gold and Greenbacks

It is often complained that people who come out to Oregon from the East suffer a great loss by exchange of paper currency for coin an [illegible] which they are obliged to make on reaching Oregon in order to conform with business regulations here. It is said too [illegible] regarded [illegible] there [illegible] since many [illegible] would be disposed to come and settle here are deterred by the [illegible] tion that they cannot afford to lose [illegible] fifteen per cent of their mo[illegible] obliged to convert it into coin

Common as this objection [illegible] superficial as common and [illegible] tion The loss complained of is far more imaginary than real [illegible] from partial and immature views [illegible] ject Gold is [illegible] man who sells his farm [illegible] fifty dollars an acre, taking his pay in paper currency, would receive [illegible] fifty five dollars or less, if the currency of the country were gold and silver When he reaches Oregon he invests his money, converted into coin, in land at twenty dollars an acre Were paper money in use here, he would be obliged to pay from twenty-two to twenty five dollars an acre for the same land. At the East all prices, regulated so as to conform to a fictitious and fluctuating paper currency, are inflated They are higher than they would be if gold were the currency in use On the other hand all prices here, fixed as they are on coin circulation, the real basis of values, are lower than they would be if the paper currency of the East circulated among us.

Comparisons and illustrations on this subject might be pursued indefinitely A greenback dollar is not a dollar calling it a dollar does not make it so. The piece of property in Illinois which is called worth ten thousand dollars, is in reality worth less than nine thousand. And when paper currency goes to par with gold, nominal values will [illegible] back. The man who sells a piece of land will not receive as many dollars; but will get just as much money

A greenback dollar will not buy as much as a gold dollar anywhere. If land in Illinois will sell for one hundred dollars an acre in paper currency, the same land can be bought for less than ninety dollars in gold In Chicago or anywhere else a gold dollar will purchase more goods of any description than a greenback dollar It is therefore absurd to suppose that a person can bring greenback dollars to Oregon and buy with them as much of anything as he can buy with gold dollars Nor does he lose the difference. He simply has not as much money as he supposed he had For every one hundred dollars which he calls his capital, he really has less than ninety

Proofs of a Bargain

The Binghampton (N. Y.) *Republican* gives the proofs of Greeley's intrigue with Horatio Seymour and other Democrats, which was begun last October The statements, which are very long, proved that Greeley promised last fall to accept the Democratic nomination. They also present a history of his long scheming to obtain it. A list of the letters which passed between Greeley and Seymour, and Greeley and other parties is furnished, and their contents epitomized. Lewis Carmichael of Otsego county, New York, is the man who first suggested to Greeley the idea of an intrigue for the Democratic nomination Greeley invited him down to New York City, and the matter was talked over Carmichael brought Seymour over to the plan Fenton was let into it, and through his efforts Greeley was nominated at Cincinnati A number of Democratic politicians, including Waldo Hutchins, set in under Seymour s direction to work the job up on the Democratic side Receiving satisfactory assurances from Greeley, they gradually brought other political leaders over to the scheme. The correspondence between Greeley and the conspirators embraced a discussion of political policy Pensions for disabled rebel soldiers, in order to conciliate and gain the vote of the South, was part of the programme The proofs furnished establish beyond question the fact that a bargain was made as long ago as last fall between Greeley and the leaders of the Democratic party, and show that the Philosopher was ready to do almost anything to get the Democratic nomination

Pleasanton, Schurz and Grant

Of course the Democratic organs are trying to make something of Pleasanton s letter to Schurz, wherein the latter was "approached" with offers of "patronage Grant positively denies that he ever authorized Pleasanton or any one else to suggest such a thing. It would seem that Pleasanton with that "smartness" which is characteristic with him, supposed he could do something in this matter and reconcile Schurz to the Administration Hence he wrote this letter to Schurz and used Grant's name. Pleasanton was at that time Commissioner of Internal Revenue, from which position he was driven soon after for his upstart self-importance and insubordination It is not strange that he should take this unauthorized liberty with Grant s name, since he was at that very time claiming to be superior to his immediate chief the Secretary of the Treasury To all who have any knowledge of Pleasanton s character, his negotiation with Schurz will not seem at all surprising A fussy, intermeddling, self-important fellow, he is not respected or believed even by those who are now trying to use him to create the impression that Grant attempted to buy Senators with offers of "patronage."

The New York *Tribune* has ceased altogether to advocate Protection to American Industry and Capital, and no longer discusses the Tariff question in any form At the same time Republicans are urged to give Greeley their support, on the [illegible] that although he is the candidate of the Democrats he remains unchanged, and will be true to his old principles and belief With this proof before them of the candidate s readiness to surrender doctrines which he has spent his whole life in advocating this claim for Mr Greeley is at once dishonest and impudent Having surrendered Protection it may well be asked to what will he remain true and what will he not do?

The editor of the *Herald* after having spent all his editorial life to prove Horace Greeley a dangerous man and a propagator of destructive ideas now finds himself obliged to say that Greeley has a "profound insight into the philosophy of our Government, and is a "clear-headed and able man The *Herald* spoke otherwise of Greeley when he was urging the reconstruction measures negro suffrage, the Ku Klux law and the bayonet election infamy

Oregon Penitentiary

From the Oregon Statesman July 31

The new penitentiary building being ready for occupancy, it was thrown open to visitors yesterday, for the double purpose of showing what had been done the past two years, and creating a prison library About two hundred and fifty persons visited the place during the day

THE NEW BUILDING

is of solid brick masonry, 212 feet long by 45 in width, with a wing of 25 feet on the north side The inside of the prison is handsomely furnished There are 86 cells, each one of sufficient size to accommodate two prisoners Forty-two of these cells are brick, and the balance of them constructed of plate iron 5 16 of an inch in thickness Each cell is supplied with two beds and a small table The walls of these cells are neatly whitewashed Each cell is supplied with water One of the conveniences of this prison is the novel mode they have of locking the cell doors By a movement of a lever an iron bar is thrown across the door of each cell on the entire row, which fastens it in such a manner that the warden can pass along and clasp the padlocks without any danger of the prisoner enclosed making an effort to escape The entire building is heated by steam pipes, and warm and cold water is convenient at all times The chapel and hospital room each have steam heaters. The former has two, each containing about five hundred feet of steam pipe The latter, one of 250 feet. The officers' rooms are conveniently arranged, although as yet they are unfurnished Two bath rooms for the officers have been erected on the first floor with all the modern conveniences. The prisoners' bath rooms are in the basement. The laundry, in the basement, has five sinks

THE ENGINE ROOM

is supplied with one of G T Blake's four-horse power engines which pumps all the water used The water is supplied by the stream which flows back of the prison. It is forced into two reservoirs on top of the building each having a capacity of 11,000 gallons These can be easily filled in two hours, and when full are calculated to supply the prison with water two days The kitchen, which is located in the basement, has been fitted up with a sixteen foot range, and two large boilers for heating water. These boilers each hold about 125 gallons of water, which can be heated boiling hot in 30 minutes The heating pipes are built immediately around the blaze being arranged with some ingenuity In this the cooking is done for all the prisoners The food when cooked is placed on a dummy consisting of about 15 shelves 3 feet square, so arranged with pulleys that it can be raised upon the first floor, where the guards take it and deliver it to the prisoners in their cells In the old prison, the convicts were fed together in a dining room, but it was found it gave them an opportunity to plot for an escape. The dungeons, four in number, are in the basement, and are dark and gloomy enough to answer any purpose The prison is divided into four distinct wards, and so arranged that it will be impossible for an outbreak to occur A tailor and barber shop have been provided for The department for female prisoners is suggestive of comfort as well as safety To give an idea of the amount of work done by the plumbers alone we might add that over eight miles of iron pipe have been laid. Anderson & Rhawl of this city did the work at the cost of about $14,000 The entire cost of the building will be about $90,000 The exercises yesterday afternoon consisted of vocal and instrumental music addresses, report of the Librarian, etc etc Governor Grover was unable to be present on account of ill health

THE LIBRARY

has just been started under the supervision of Dr Fiske He canvassed the city three days and received about 300 volumes on different subjects A room has been arranged, and the prisoner whose conduct has been good will be allowed the free use of it Yesterday's exercises at the chapel was the means of drawing forth a liberal contribution, and the library is now started under the most favorable auspices The visitors were invited to witness the convicts work in the brick yard, and the greater portion of them availed themselves of the invitation About 32,000 brick were turned out yesterday The Salem Brass Band furnished music for the occasion, which was a rich treat for the convicts

CLOUD BURSTS.—The Truckee *Republican*, in reference to the cloud bursts which occasionally occur in the Sierras during the summer season, says "So sudden is the flood that where not a drop of water has been seen for weeks or months, a huge, turbulent, overwhelming torrent comes pouring down, carrying trees, rocks and everything else before it, washing away railroads, bridges toll roads houses, in fact anything in its way One of these floods thus pouring down a steep dry mountain canon frequently shows an advancing front of logs, bushes, huge bolders and similar debris twelve or fifteen feet high Woe to any unlucky teamster who happens to be passing with his loaded wagon along the bed of the canon Those who understand matters are able to guard against the impending calamity by getting their wagons out of the ravine and up on the hillside as far as possible or if they have no time for that they will unhitch their animals and give them a chance to escape Instances are known where one of these cloud bursts has occurred on some broad slope where having no ravine to carry off the water it has plowed and torn a channel for itself of great depth and extent

The mammoth McHenry lodge in Parley's Park, says the Corinne *Reporter* of July 18th has been sold to J M Whiteaker and Colonel Templeton, of San Francisco It is said that the price paid was very large—rumor setting the figure up as high as a million dollars one third cash, for this extraordinary lodge, which was worth twenty millions a week ago

The first car load of ore from Colorado to the Royal German Works was shipped July 9th from Georgetown, Colorado, by J W Glenn, through Messrs Jay Cooke & Co, New York It assayed 400 ounces silver to the ton of 2 000 pounds, and the total value was $5 600 coin Two more shipments are nearly ready It is confidently anticipated that Freiberg will prove a more profitable market for high grade ores than Swansea, Wales.

Father Mesplie at the White House

(From the Washington (D. C) Irish Republican)

Father Tousaint Mesplie, the great Catholic missionary, of whom we wrote at some length in our last number, is doing noble work for the Church and for the Indians in pressing the Catholic claims for the restoration of the old missions taken from them Not less than twenty-four missions, many over two hundred years old, have been taken from the Catholic Church and given to various other denominations. The Government authorities say that they did not understand the situation, and that until Father Mesplie came to Washington there was neither Catholic unity, protest, or explanation which might govern them in their disposal of the missions These things are being thoroughly explained by Father Mesplie, and while it is not so easy to make immediate restoration or restitution, still the good Father hopes through the justice of the President, that the Catholic missions will all be eventually restored

During the President s late visit to Washington he accorded Father Mesplie a most pleasant interview The President received the good Priest in the most cordial manner, and granted immediately the only request the Father had to make at the time Attorney General Williams, who had recently returned from Oregon was present at the interview and greeted the Father in the warmest manner

The Father seems to be as well known at the White House as he is in the great west General Dent, at whose house Father Mesplie was a repeated guest in the days previous to the late war, when the General was stationed among the Indians treated him with more than his usual warmth If we only had more priests like Father Mesplie men who will not suffer the church to be wronged religiously or politically we would occupy a higher and prouder position in the nation than we do

FOREIGN WORKMEN.—One of the errands attributed to J Edgar Thompson, Prince Tom Scott s ambassador to Europe, is the enlistment and shipment to America of foreign sailors to man the new Philadelphia line of steamers to Europe In no industry probably is there a greater difference between wages in the old and new world than among seamen Americans will not go as common sailors short of $40 a month, three and four times the wages of the English or German sailors In the higher posts of seamanship the difference is equally great The first officers and engineers of the Bremen and Hamburg boats get from $600 to $1,000 a year, notwithstanding the education and fidelity required the responsibility imposed and the necessary perils and discomforts of the sea And yet we are informed that there is great competition for their places It is the competition not of the "pauper labor, but of the aristocratic labor of Europe Families with a "von" to their names and a coronet on their old silver, when they fail to get their sons into the civil service or into the army, put them into the professions and genteeler arts even at small wages There is no sound philosophy in grumbling at their importation in gross if anybody desires to risk money in it for it is useless to deny that Americans find more pleasure and profit in more active sphere —*Springfield Republican*

THURSDAY MORNING AUGUST 1 1872

CITY.

DETERMINED TO DROWN.—A lively scene was enacted yesterday afternoon in the river opposite the foot of ... A fellow evidently in liquor stepped on board a little sailing craft which was moored there and pushed her off with the intention of having a sail. The craft had not receded from the shore more than thirty or forty yards when the fellow raised up in the middle of the boat and to steady himself grasped the mast and rigging. But the calls of gravitation overcame him and he fell backward into the water, carrying, of course, ropes, mast and boat. Instead of holding on securely to the keel, and thus keep his head above water, he would scramble up on the side of the capsized craft, and letting go his hold roll off backwards into the river. This he continued to repeat until two men on the shore started out in another boat to his rescue. He was pretty badly strangled, however, before assistance reached him. The two men at length caught hold of him and drew him in their boat. While they were endeavoring to reach the land near at hand he attempted several times to start up again, and fell out as before. Again, after much exertion, he was rescued and held by main force until they reached the land. Depositing him safely on *terra firma*, the other two men started out in the stream to bring in the capsized boat. They had not pushed many yards from the shore, when the intoxicated fellow plunged into the stream and swam off down to a "chicken scow" moored just above the O S N Co's wharf. He reached the boat in safety, and after remaining on board for a few minutes, sprang off again and swam back to the foot of Oak street, where the two men who had twice rescued him, were engaged in bailing out the boat and straightening the tangled rigging. By this time the liquor appeared to have become adulterated by the quantities of water he had swallowed, and he suddenly sobered down and began to assist his rescuers to right the ill-fated craft, which came so near consigning him to the care of a Coroner and undertaker. Much excitement and noise prevailed for about fifteen minutes over the affair, and many thought the fellow would drown despite the efforts made to save him from certain death. If self destruction was in his mind, he certainly made an awkward attempt to carry it into execution. Arsenic would perform that job in a much more artistic manner.

CLATSOP BEACH.—A well known gentleman of this city, who is now spending a few days at Clatsop Beach, writes as follows concerning hotel accommodations there: "As many of your readers will be thinking of going to the coast if this warm weather continues, permit one to say a good word for the Ocean House, advertised in your columns, and kept by T B Morrison, Esq. This house has the best furnished rooms of any house on Clatsop Beach. The main building is a two story, hard finished house, containing a dining room, kitchen, sitting room, and ten bed rooms. About forty feet from the main building, one on the north and one on the south, are two one-story cottages, each containing four bedrooms. The landlord is a very courteous, accommodating gentleman; the table is well supplied, everything is neat and clean; a spring wagon and team, and several riding horses are constantly at the disposal of the guests, free of charge. There is a beautiful fresh water lake back of the house with boats for rowing; also boats on the creek in front of the house; pleasant rambles through the woods, and along the beach; good fishing and good bathing in either salt or fresh water. In fact the Ocean House is a good place to go to, and I advise Portlanders to take a little run away from the heat and smell of the city and get a good 'snuff' of the pure, bracing air of the coast."

HAD HIS TROUBLE FOR HIS PAINS.—A young man up town being much enamored of a fair damsel living near, concluded to give her a "sweet serenade," a few evenings since. So procuring a soft sounding guitar he proceeded to her residence and began to play some sentimental music, supposed to be complimentary to his inamorata. Seeing a light in her window and occasionally catching a glimpse of her sylph like form moving about in the room, he thought she was no doubt listening to and highly appreciating the sweet strains that were floating out on the "stilly night" and costing him a good deal of the ... on the ends of his fingers. After he had gone through with his stock of instrumental music, he essayed to accompany his guitar with his voice and began to sing. But imagine his surprise and disgust when another young chap who has been his rival for some time, at the close of the song, came out of the house and remarked to the serenader, "I guess you might as well quit now, I have just left Miss S. and she said she was going right to bed." Thus our musical lover found he had been standing out there for an hour and a half, wearing out his fingers on the guitar for the delectation of his rival who was inside having a good time with his girl. He concluded he wouldn't stay there any longer and left with an enormous disgust on.

CITY CLOCK.—The hands and portions of the machinery attached to the city clock were taken to pieces yesterday, cleaned, and placed in better running order. The gas fixtures by which it is to be illuminated are also being arranged, so that everything connected with the city's time-piece will be in readiness as soon as the arrangements between the Gas Company and the Council have been consummated. The proposition submitted by the company is to this effect: That a reduction of 25 per cent will be made by the company on the price of gas per thousand feet. The price charged is $6 per thousand. By the reduction the city will pay only $4 50 for every thousand feet consumed, which is as reasonable as could be expected under the circumstances. This proposition, we learn, has been accepted by the City Fathers, and the city clock so long in the region of darkness and shadows, will be illuminated.

TAX ABOLISHED.—The revenue tax of twenty cents on every 1,000 feet of gas consumed, has been abolished, and takes effect from and after to-day. Heretofore the Portland Gas Company have been compelled to pay to the Government the above amount on every 1,000 feet of gas which has been sold to their patrons. Of course the consumers have had to pay this amount to the company, in addition to the usual charges. Now that the tax has been abolished consumers will not be called upon to pay but the customary rates of the company. This reduction in price appears quite small but when large quantities of gas are consumed the revenue tax aggregates no inconsiderable sum in the course of a year.

AID SOLICITED.—The German Lutheran Congregation of this city, wishes to secure a place for holding their church services. The Congregation has but lately organized, is small in membership and its means are limited. It is hoped by securing a church building of their own, and becoming permanently established, to gather strength and increase its membership. They therefore earnestly solicit aid of the religiously minded citizens of Portland to lend them assistance in their undertaking. The following persons were appointed a committee to solicit aid: Henry B ...man, Chas Meyer, J A Fisher, Mrs C F Wiegand, Mrs H Weinhard, Mrs J A Fisher and Rev R ...

THE GAS TANK.—The excavating for the gas tank at the corner of F and Sixth streets is progressing with renewed vigor. The loose earth, instead of being hauled out by carts and conveyed to some remote point, is shoveled, as rapidly as it is detached, into a large, capacious tub, which is hoisted by steam power. The rope by which the earth is elevated runs through a pulley attached to the end of a derrick. After the tub is raised above the surface it is swung around and the earth thrown out. By this contrivance the work proceeds with much greater expedition.

INSTALLATION.—The following named Officiating Chiefs, elect and appointed of Multnomah Tribe No 3, Improved Order of Red Men, were installed in due form by the D ... of this District, on Tuesday evening, July 30th 1872: Chas M Martin S; Henry T Hudson S S; John Masters J S; George C Sears C of R; J Put Smith K of W; E Merrill 1st S; L Therkelson 2d S; R D Feeborn G of W; Henry M Hudson G of F; ... E Foord 1st W; James F Rankins 2d W; John Ewry 3d W; Alex Campbell 1st B; Wm ...merman 2d B.

SLIGHT DAMAGES.—A gentleman from Astoria informs us that the damage sustained by the *Geo S Wright* is but slight. Instead of the propeller being broken, as was first supposed it was discovered on beaching her that some portions of the boxing surrounding the shaft had become loose and slipped down. These pieces were so firmly wedged in that the whole power of the engine was insufficient to cause the propeller to revolve. She will be ready to resume the voyage as soon as new boxing can be ... and ...

CONVIVIAL TIME.—A most social and convivial time was experienced last evening on the formal opening of the office of the Chief Engineer of the Portland Fire Department, Mr Archie A Williams, at the Police Court building. A number of firemen from the several companies of the city, invited guests and members of the press were present. Cakes, sandwiches and champagne were served in abundance, and a jolly good time was experienced. After many bumpers to the health and happiness of the Chief, the members of the party dispersed.

COMPLETED.—The plans and specifications of the new dredger, soon to be built here under the supervision of Major Robert, have been completed. The plans will soon be forwarded to Washington for the approval of the Bureau of Engineers of the War Department. If accepted, the contract for the construction of the boat will be let, and work on the same follow soon thereafter. The new dredger will probably be completed in time this fall to commence operations before the winter rains compel a suspension of the work.

ARRESTED FOR FIGHTING.—Two men were arrested yesterday afternoon for indulging in a little private "round." They were taken into custody and admitted to bail for their appearance this morning. Late last evening, as one of the combatants was standing on the sidewalk, the other fellow came cautiously up behind him and dealing a powerful blow knocked him down. For this second assault he was marched off to jail, where he is now. The case will be examined before Judge Denny this morning.

INSURED.—The dwelling house belonging to A H Johnson, which was damaged on Monday afternoon by fire, is, we learn, insured in the Home Mutual for the sum of $2,000. The policy had not expired, as was first supposed. The total loss will not exceed $500. Workmen will soon commence to repair the damages resulting from the fire and water and the building will be ready for occupancy in a few days.

STEAMER DAMAGED.—The steamer *Mary Bell*, while on her way to this city yesterday morning, ran afoul of a snag just above Swan Island. One of her wheel houses was carried away by the violence of the collision, the wheel considerably damaged, and a portion of her guards torn off. She reached the city about ten o'clock. The necessary repairs will be made soon.

GOOD TEMPLARS HALL.—Arrangements have been completed for the letting of the contract for the erection of the proposed new hall by the Good Templars' Hall Association. We shall soon be able to announce the name of the contractor. The present intention of the Building Committee is to break ground at the corner of Third and Alder streets in about ten days.

NEW TEACHER.—We are informed that the position until recently occupied by Professor T H. Crawford, Principal of the North Portland Public School, has been tendered by the Directors to Professor King, of Lafayette. The offer will in all probability be accepted.

INSPECTED.—The Washington Guard were inspected at their Armory, last evening, by Capt Smith, of the State Militia. The clothing, guns, accouterments, etc, were in good condition, and the Company very creditably proficient in the various military evolutions.

COURT.—In the U S. District Court yesterday, it was ordered to set aside the execution in the case of Robert McCuen et al vs ship *Annie M Small*, and that the same be returned by the Marshal. The Court then adjourned until next Tuesday.

COMMON COUNCIL.

REGULAR MEETING JULY 31, 1872

The Common Council met last evening at the Chamber at 8 o'clock, Mayor Wasserman in the Chair.

Present—Councilmen Besser, Burton, Caywood, Congle, Russell and Story.

Absent—Councilmen Hill, Hallock, Moreland.

Minutes of the last meeting were read and approved.

PETITIONS, MEMORIALS, ETC

The remonstrance of E D. Shattuck and others against the proposed grade of Montgomery street, was read and referred to the Committee on Streets and Public Property.

Remonstrance of J. E Nanaant against the proposed improvement of South-Second street. Read and referred to the same Committee.

The remonstrance of property holders against the planking of Sixth street was read and referred to the same Committee.

REPORTS.

The report of the City Surveyor on the proposed widening of North First street, with accompanying maps was submitted. The report was read and referred to the Committee on Streets and Public Property, with instructions to report by ordinance.

CLAIMS AGAINST THE CITY

The following claims against the city were ordered paid: Charles Hopkins, $3 38; J B Congle, $1 25; John Barrett, $1 10; G Graybell, $3; Willamet Iron Works (2 bills) $175 55; Dilg & Tileson, $13; Henry Lewing, $3 75; John Barrett, $74 70; Fuoil Lowenstein & Co, $6; Henry L Pittock, $6 10; *Herald* Printing Company, $28 75; C H Myers (2 bills), $70 50; P G L Co, $25 50; P G L Co, $22 70; William Gillett $54; J H Butler, $21; W Croo and two others $24 each; Himes & Bachelder, $67.

ORDINANCES

An ordinance, adopting the report of the City Surveyor in the matter of the proposed extension of B street, was read first and second times, and laid over under the rules.

An ordinance, adopting the report of the viewers in the matter of the proposed extension of Ninth street, was read first and second times, and laid over.

An ordinance, adopting the report of the viewers in the matter of the extension of Tenth street, was read first and second times and laid over.

An ordinance, adopting the report of the viewers in the matter of the extension of Eleventh street, was read first and second times, and laid over.

An ordinance, adopting the report of the viewers in the matter of the extension of Twelfth street was read twice, rules suspended, ordinance read a third time and passed.

An ordinance making an appropriation out of the General Fund to defray the expenses of repairs to bridges. Read twice, rule suspended, ordinance read a third time and passed.

An ordinance making an appropriation out of the Police Building Fund, read a second time and amended, rule suspended, ordinance read a third time and passed.

An ordinance making an appropriation out of the General Fund to supply the deficiency in the Police Building Fund. Read a second and third time and passed.

An ordinance authorizing the Committee on Streets and Public Property to advertise for the lowest bid, and enter into the contract for the construction of five fire cisterns (or hydrants?). Read a second and third time and passed.

MISCELLANEOUS

O Risley, C Holman and F McGuire were appointed viewers of the proposed extension of Columbia street.

The auditor was authorized to give the usual notice of the proposal to improve East Park and North West Park streets and of the proposed establishment of the grade of Eighth street at the intersection of Jefferson street.

On motion, leave of absence was granted for thirty days to W S Caldwell, Auditor and Clerk.

On motion warrants were ordered drawn for the following amounts when the ordinances making the appropriations out of which they are to be paid shall be approved by the Mayor, to wit: W H Butts & Co, $1 191 63 for ...; A A Williamson (2 bills) $2 ...; F M Lurton on police building fund $7 ...

The City Surveyor was instructed to survey the proposed extension of ... street and make a report of the same.

BREVITIES.

Collection day.

Steamer day to-morrow.

First day of the month.

The dead heat of August is upon us.

Judge Denny disposed of a number of cases yesterday.

Inspection last evening at the Montgomery Guard's Armory of that company.

Clouds of smoke are again thickening the atmosphere and obscuring the vision.

During the past year 1,800 arrests have been made by the police force of the city.

Hon Mr Hutchins, State Senator from Yuba county, California, is now in this city.

The morning contemporary charges the Fire Department with mismanagement in cases of fires.

The celebrated Twenty first Infantry Band will come over on next Sunday to discourse music at the East Portland Park.

Judge Wyche of Vancouver proposes to remove soon to Walla Walla, at which place he will engage in the practice of law.

Last evening a large pile of brush burning in the woods beyond the residence of Mr Jas B Stephens, in East Portland, was taken at first to be that gentleman's house on fire.

The members of the A M E Zion Church will give a Festival this evening. A grand jubilee will be given by the same Church on next Sunday evening, to commence at 7 30 o'clock.

We learn that a man in a saloon up street last evening, while attempting to catch a rat, fell through a pane of glass in one of the doors and cut his arm and hands badly. The affair cast a deep gloom over the entire bar room. Too much credit can not be given to the gentlemanly bar keeper for the efficient manner in which he swept up the glass. The rodent was "slewed," which in a measure atoned for the luckless affair.

AMUSEMENTS.

EAST PORTLAND PARK.—This favorite place of amusement will be open on next Sunday under the auspices of Messrs Waldron & Ladd. A series of attractive and wonderful performances will be given by the celebrated acrobats, gymnast and aerial suspensionists, M'lle Garetta and Ed Montague. During the exercises, many other amusements will be introduced. Music will be provided by the East Portland band. For further particulars read the advertisement.

BUSINESS NOTICES.

BOARDING SCHOOL.—It will be seen by our advertising columns that the Bishop Scott Grammar School will open for the next term on the 2d of September, and St Helens Hall on the 4th. The Grammar School will have enlarged accommodations by the erection of a commodious wing, and will be able to receive 20 additional boarders. St Helen's Hall will accommodate 60 boarders and a school of 250 pupils.

It does not matter whether you vote for Grant or Greeley you are always made perfectly at home in a suit of Clothes manufactured at the extensive Clothing manufactory of Fishel & Roberts. Revolutions Never Go Backward.
The philosophical theory that the human system when weakened by disease, oppressive heat, excessive labor, or any other cause, should be toned and invigorated instead of being subjected to the depleting drugs is gaining ground every day. The introduction of Hostetter's Stomach Bitters twenty years ago gave a powerful influence to this common sense idea. As the extraordinary efficacy of the Great Vegetable Restorative became known, multitudes of debilitated invalids turned with loathing from the nauseous and strength destroying potions with which it was then the fashion to drench the sick, to this renovating, appetizing, vitalizing preparation derived from the finest roots, herbs and barks placed by botanical research at the disposal of medical science. Revolutions never go backward. From that time to the present the importance of assisting and reinforcing nature in her struggles with disease has been more and more widely and keenly appreciated by the sick and the suffering. In tens of thousands of households Hostetter's Bitters are looked upon as the one thing needful in cases of Dyspepsia, General Debility, Constipation, Nervous Weakness, Chills and Fever, Bilious Affections and all ... tions of the body and mind that betoken a lack of energy. When the quicksilver ranges high and the solid flesh is resolving itself into a dew under the ... temperature this agreeable tonic is the best possible safeguard against all the disorders generated by a sultry and unwholesome atmosphere. It prevents and relieves lassitude and languor and enables the system to ... with impunity an unusual amount of exertion. Of all invigorating and regulating medicines it is the purest and most wholesome.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

Birth Day of One of the Friendless

In a dwelling that love had provided
For desolate children of earth
An innocent sat watching the dawning
Of the day that recorded her birth

In the sweep and the speed of the p[illegible]
Tis said [illegible] such day meets [illegible] ken
[illegible] the eye that [illegible] like a beacon
Can look o'er life's [illegible]

A [illegible]
And [illegible]
And a sigh from her lip [illegible]
F[illegible] her [illegible]

And [illegible]
A [illegible]
And [illegible]
The faces so cherished [illegible] there

Ah who in the home [illegible]
Will think of the land [illegible]
And what hearts [illegible]
In making a feast of the day

But it passed—the clouds and the sadness
And a smile [illegible] the tear
As she clasps her hands and [illegible] whispers
My Father and Saviour are here

And love, that owneth no dwelling
But abideth like God in each place,
Was there in his beauty and glory—
There stamping each spirit and face

He spread there a festival table,
Bedecked by his fairy like hand
With the blossoms and wreaths and the emblems
Of the dear old Fatherland

And she who thus highly was honored
Like a priestess arose and stood
And with faith that never had faltered
Thanked God the Giver of good

Wheat and Prices.

The *Statesman* (Salem) thinks we err in the view that our farmers will not realize more than 65c per bushel for their Wheat We have looked at this subject with the best lights we have and though we greatly wish the facts were otherwise, yet it seems best to look at them as they really are. The *Statesman* says that the 'price of Wheat at Liverpool will have more to do with governing ours than will the San Francisco quotations Yes but the Liverpool quotations govern prices both here and at San Francisco, and it cannot be supposed that Wheat will bear higher quotations here than at San Francisco Now quotations at San Francisco are about $1 55 per cental This is equal to 93c per bushel It includes sacks which are worth 8c per bushel leaving 85c for Wheat in that market Now let it be admitted that Wheat in Portland will be worth as much as in San Francisco It certainly cannot be worth more and in fact must always be worth something less. The cost of transportation from the farm to this market will average 15c per bushel This would leave 70c Then allow 5c for commissions and all other charges, and we have 65c left, as the most that can be realized by the farmer The *Statesman* errs also in supposing there will be no scarcity of [illegible] age to move our crop The vessels coming in and [illegible] cargoes will not be numerous enough to take away more than one-fourth of our surplus. We shall not [illegible] more than twenty foreign vessels and perhaps not that many So far we know of less than a dozen [illegible] in that will want cargoes

According to the Boston *Advertiser* Maine and New Hampshire do not raise bread enough to last the people of those States more than ten days Massachusetts and Rhode Island do not raise enough to last a single day and all the New England States together are compelled to purchase one hundred million bushels of grain per annum

Cost of Transportation.

According to Poor's railroad statistics the cost of transport[illegible] corn and wheat over ordinary highways will equal twenty cents per ton per mile. At such a rate the farmer will bear transportation only 125 miles to market, while its value is equal to 75 cents per bushel, the latter only 250 miles, while its value is $1 00 per bushel. With such highways only our most valuable cereals will have no commercial value outside circles having radii of 125 and 250 miles respectively Upon a railroad the transportation equals 1¼ cents per ton per mile With such a work consequently, the circle within which corn and wheat at the prices named will have a marketable value will be drawn upon radii of 1,600 and 200 miles respectively The area of a circle with a radius of 125 miles is 49 087 square miles that of a circle drawn upon a radius of 1 600 miles is about 160 times greater or 8,043,406 miles. Part of this is theory however as no railroads in this country move grain at 1¼ cents a ton per mile.

Markets.

[BY TELEGRAPH]

NATIONAL REPUBLICAN PLATFORM

ADOPTED [illegible]

[illegible] Nation [illegible]

1 [illegible]

[illegible] to complete [illegible] land grants [illegible] of the Nation [illegible] at extraordinary [illegible] bonds at [illegible] fifty [illegible] honest [illegible] the public debt has been reduced during [illegible] Presidency at the rate of $100 000 000 per year [illegible] financial crisis has been averted [illegible] through the land [illegible] and the honor [illegible] of the Nation kept [illegible] the past [illegible] people [illegible] to any party or combination of men composed of those who chiefly have [illegible] progress

2 Complete liberty and exact equality in the enjoyment of all civil political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and Federal legislation [illegible] mit of any discrimination in respect to citizens by reason of race creed color or previous condition of servitude

3 The recent amendments to the National Constitution should be cordially sustained because they are right not merely tolerated because they are law and should be carried out according to their spirit by appropriate legislation the enforcement of which can be safely trusted only to the party that secured those amendments

4 The National Government should seek to maintain honorable peace with all nations protecting its citizens everywhere and sympathizing with all peoples who strive for greater liberty

5 Any system of civil service under which the subordinate positions of the Government are considered rewards for mere party zeal is fatally demoralizing and we therefore favor a reform of the system [illegible] which shall [illegible] efficiency and fidelity [illegible] public position without practically creating a life tenure of office

6 We are opposed to further grants of the public lands to corporations and monopolies and demand that the National domain be set apart for free homes for the people

7 The annual revenue after paying current expenditures should furnish a moderate balance for the reduction of the principal of the public debt and [illegible] raised by duties upon importations [illegible] the whole industry of the country

8 [illegible] those who [illegible] of our soldiers and sailors [illegible]

9 The doctrine of Great Britain and other European powers concerning allegiance—"once a subject always a subject," having at last through the efforts of the Republican party been abandoned and the American idea of the right of an individual to transfer his allegiance having been accepted by European nations it is the duty of our Government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former Governments and we urge continued and careful encouragement and protection to voluntary emigration

10 The franking privilege ought to be abolished and a way proposed for reductions in the rate of postage

11 Among the questions which press for attention is that which concerns the relations of capital and labor and the Republican party recognize the duty of shaping legislation so as to secure a full protection and ample field for capital and for labor which creates capital the largest opportunities and a just share of the mutual profits of these two great servants of civilization

12 We hold that Congress and the President have only fulfilled an important duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions and for the protection of the ballot, and therefore they are entitled to the thanks of the Nation.

13 We denounce the repudiation of public debts in any form or disguise as a national crime We witness with pride the reduction of the principal of that debt and of the rates of interest upon the balance and confidently expect that our excellent national currency will be perfected by a speedy resumption of specie payment

14 The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom their admission to further usefulness is received with satisfaction and the honest demands of any class of citizens for additional rights should be treated with respectful consideration

15 We heartily approve of the action of Congress in granting amnesty to those engaged in the rebellion and rejoice in the growth of peace and fraternal feeling throughout the land

16 The Republican party proposes to respect the rights reserved by the people to themselves as carefully as the powers delegated by them to the State and Territorial governments. It disapproves of resorting to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or National Government

17 It is the duty of the General Government to adopt such measures as will tend to encourage American commerce and ship building

18 We believe that the modest patriotism the earnest purpose the sound judgment the practical wisdom the incorruptible integrity and the illustrious services of U S Grant have commended him to the heart of the American people, and with him at our head we start to-day on a new march to victory

Dr Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL San Francisco Established in 1854 for the treatment of Sexual and Seminal Diseases such as Gonorrhœa Gleet Stricture Syphilis in all its forms Seminal Weakness Impotency [illegible] Skin Diseases (of long standing) and Ulcerated Legs successfully treated

DR GIBBON has the pleasure of announcing that he has [illegible] visiting the principal Hospitals of Europe and has resumed practice at his Dispensary 623 Kearny street corner of Commercial, San Francisco where his old patients and those requiring his services may find him

The Doctor has spared neither time nor money in seeking out new remedies and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases

How many thousands of persons both male and female are there who are suffering untold miseries as the result of the effects of secret indulgence or from virus absorbed [illegible] Look at their pallid emaciated and disfigured faces and their [illegible] and wan condition thus disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents and guardians attend to those who are suffering with any of these terrible life-destroying maladies—see that they are cared for and cured before it be too late Send them immediately to DR GIBBON a physician who has made private diseases his especial study for years and who is certain to cure the most inveterate case without mercury or any injurious drugs It is important to those who are afflicted or to those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans

Seminal Weakness

Seminal Emissions the consequence of self abuse This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures viz. Sallow countenance dark spots under the eyes pain in the head ringing in the ears, noise like the rustling of leaves or rattling of chariots uneasiness about the loins weakness of the limbs confused vision blunted intellect loss of confidence diffidence in approaching strangers a dislike to form new acquaintances a disposition to shun society, loss of memory hectic flushes pimples and various eruptions about the faces furred [illegible] fetid breath coughs consumption night sweats [illegible] If [illegible] be not obtained [illegible] either in person or by letter and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of the too fearful maladies, should not forget the sacred responsibility resting upon them nor delay to [illegible] relief

DOCTOR GIBBON s responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions By inclosing Ten Dollars coin in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union

All communications strictly confidential

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to-certificates, dupe the unwary some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places are tradesmen and became too lazy too work at their trades Some are tinsmiths, shoemakers newspaper carriers intelligence office keepers, etc The only way to avoid imposition is to make inquiry—it will cost you nothing and may save you many regrets for as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles certificates, pretended patients letters etc Dr Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure
